CREATIVE SPACES FOR
IDEAS & ENCOUNTERS
ACROSS BORDERS

Curiosity, Creativity, Cooperation

C*SPACE is a multifunctional creative space located on two floors of a former furniture factory in Berlin Weißensee. Whether event-loft, workshop-space, atelier, co-working or open kitchen – our hosts are open and enthusiastic to explore new ideas that can emerge in this location, as well as to collaborate with the people behind these visions.

C*SPACE

MORE THAN A LOCATION VISION & MISSION

C*SPACE

Imagine...

more spaces in Berlin and beyond,
where despite boundaries and disconnects,
people co-create common ground.

Open-hearted and open-minded,
responding courageously to big challenges,
while curiously finding joy in everyday life,
seeking alternative ways of learning, living and
contributing to regenerative economies and societies.

Our mission is to curate and organize spaces that
catalyze creativity and vitality. We connect people, ideas
and potential, paving the way towards cooperation for
social innovation and international understanding. Next
to providing our physical location, we also initiate our own
cultural and learning programs.

C*SPACE is a place with a soul, thriving on the professional and personal support provided by our hosts.

The C*SPACE team enriches events with its diverse expertise – from facilitation to photography, concept work to cooking, and creative workshops to neighborhood walks – happily adjusting the offers to the needs of our clients. Our Tea Culture Sessions are also a special addition we can offer to clients ([check out our portfolio](#)).

C*SPACE HOSTS

GLOBALLY CONNECTED, LOCALLY ROOTED

C*SPACE

The creators and hosts of C*SPACE are Katja Hellkötter and Jan Siefke. Before moving to Berlin, they had lived in France, India, Chile, Hongkong and Shanghai for over 16 years. Since 2015, Weißensee district has been their workplace and home. Their extensive experience and contacts in international understanding, as well as their local engagement in the neighborhood, make C*SPACE a meeting point for both the international and local community.

Katja

Katja Hellkötter has been active for 20 years as an intermediary actor in transcultural cooperation at the intersection of economy, society, and culture. She is a trained process facilitator and passionate curator of creative and cultural projects. Upon request, she supports events at C*SPACE as a moderator and program designer.

Jan

As a freelance photographer, Jan Siefke specializes in finding new angles and changes in perspectives – both worldwide behind the camera and as the C*SPACE host and manager. Here, he offers photo-shootings for events and portraits, as well as the 'Creative Tea Time Session' as an experienced tea lover.

We work locally and globally, providing space to enterprises, nonprofit organisations and initiatives alike, coming from various fields and disciplines. In 2022, C*SPACE received the **“Hero Space – Award for Excellence“** by SPACEBASE as well as the **“Customer Choice Award“** for best reviews. Here are some of the clients and partners we have had the pleasure to host in the last two years.
